PROFESSIONAL SUMMARY

Full-stack web developer with two higher technical degrees (Web and Multiplatform Application Development) and experience across the full lifecycle of web applications. Modern frontend with Vue.js and TypeScript, backend with PHP and .NET. Proactive problem-solver focused on code quality, used to working in agile teams (Scrum, Kanban). Currently pursuing a Bachelor's degree in Information Technology Engineering (UNED).

PROFESSIONAL EXPERIENCE

Web Developer **Mar 2025 – Present**
Avantio · Hybrid

Technical maintenance, evolution and deployment of the company's booking management software and websites.

- **Custom development:** built interactive widgets and components from scratch with modern JavaScript, SCSS and PHP to extend the core product.
- **Architecture & logic:** restructured complex websites and booking flows using a component-based architecture and dynamic business logic (PHP templates).
- **Integrations:** implemented and configured sales, payment gateway and long-stay brokers in coordination with the Systems team.
- **Tooling:** managed local development environments with Node.js and Gulp to keep compatibility across product versions.
- **Code quality:** agile workflow with Jira, Pull Requests on GitHub and cross code reviews.

Full Stack Developer (Internship) **Sep 2022 – Jan 2023**
Kiteris Solutions · Remote

Enterprise resource management platform built on microservices.

- **Backend:** built and maintained microservices with .NET and C#.
- **Frontend migration:** moved legacy interfaces to a modular SPA with Vue.js, Pinia and TypeScript.
- **Key features:** login/authentication, advanced data filters, Swagger-documented API integration and PDF report export.
- **Impact:** estimated 25% improvement in user experience and 15% in code readability by applying SOLID principles.

PROJECTS

- **matchaTest** Vue 3 · TypeScript · IndexedDB — Local-first multiple-choice exam simulator: configurable scoring engine, PDF syllabus parser and Leitner-based review deck.
- **Booky Bloom** Kotlin · Firebase · MVVM — Android reading app with a review community and admin/client roles. Final project of the DAM degree.
- **Lumière Studio** PHP (MVC) · MySQL · Docker — Appointment, stock and user management for beauty centers, with database triggers for inventory control.

EDUCATION

Bachelor's Degree in Information Technology Engineering, UNED — **2026 – Present**
Higher Technical Degree in Multiplatform App Development (DAM), Ilerna · GPA 9.14/10 — **2024 – 2025**
Higher Technical Degree in Web App Development (DAW), Ilerna — **2020 – 2023**
Criminal Justice (1 year completed), ASA College, New York, USA — **2016 – 2017**

TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, Vue.js, Pinia, HTML5, CSS3, SCSS, Tailwind CSS

Backend: PHP, C#, .NET Core, microservices, REST APIs, Swagger

Databases: SQL, MySQL, SQL Server, Firebase

Tools: Git, GitHub, Jira, Node.js, Gulp, WordPress

Methodologies: Scrum, Kanban, code review, SOLID principles
